Dear Ms. H.,

Please excuse the delay, the appearuarance and the lack of editing of the enclosed. Better was physically impossible for me at this stage of my life.

and emotionally.

In assembling the enclosed and my copy of it I had to sit with my legs elevated-could not stand at a table.

I got confused in doing that and may have the originals and the copies mixed. If so it was not intentional.

If you have any questions I will be glad to answer them but if any such questions are based on your Pigs fabrications or those he accepted from another and kept that secret, with any such questions I ask for his proofs of what is not true in his piece.

I have heard nothing from him since he received what you sent him that I asked you to give that to him.

If you have heard from him what is not properly confidential I would appreciate having that.

Sincerely
Harold Weisberg
